

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## NN (L) Japan Equity - I Cap EUR

ISIN: LU0293039599

A sub-fund (hereafter referred to as the fund) of NN (L)

This fund is managed by NN Investment Partners B.V.

### Objectives and Investment Policy

The fund consists of a diversified portfolio of stocks of companies established, listed or traded in Japan. Other than directly investing in companies, the fund may also invest in other financial instruments to implement the investment strategy. The fund uses active management to target the most promising companies on the Japanese market, with stock and sector deviation limits monitored relative to the benchmark. Its stock-level composition will therefore materially deviate from the benchmark. Measured over a period of several

years we aim to beat the performance of the benchmark MSCI Japan (NR). The benchmark is a broad representation of our investment universe. The fund may also include investments into securities that are not part of the benchmark universe. You can sell your participation in this fund on each (working) day on which the value of the units is calculated, which for this fund occurs daily. The fund does not aim to provide you with a dividend. It will reinvest all earnings.

### Risk and Reward Profile

Lower risk - Typically lower rewards

Higher risk - Typically Higher rewards

Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this fund. There is no guarantee that the risk indicator will remain unchanged, it may shift over time. The lowest category of risk does not mean that the investment is riskfree.

This fund is in category 6 because of the behaviour of the product during the measuring period. The overall market risk, taking into account past performances and future potential evolution of the markets, associated with stocks and/or financial instruments used to reach the investment objective is

considered high.

These financial instruments are impacted by various factors. These include, but are not limited to, the development of the financial market, the economic development of issuers of these financial instruments who are themselves affected by the general world economic situation and the economic and political conditions in each country. The Sub-Fund's liquidity risk is set to low. Liquidity risks may arise when a specific underlying investment is difficult to sell. Moreover, currency fluctuation may impact highly the Sub-Fund's performance. Investments in a specific geographic area are more concentrated than investments in various geographic areas. No guarantee is provided as to the recovery of the initial investment.

## Charges

All charges paid by the investor are used to pay the running costs of the fund, including the cost of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest:

Entry charge	2%
Exit charge	0%

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

### Charges taken from the fund over a year:

Ongoing charge	0.81%
