## Fondsstrategie

The aim of this Fund is to achieve the highest possible capital growth in EUR. The Fund will invest at least 70% of its net assets in transferable equity securities and rights evidencing ownership of equity, with focus on developed markets (primarily USA and Western Europe). The Fund's strategy is also to invest in Financial Derivatives Instruments (instruments whose prices are dependent on one or more underlying assets "FDIs"). The Investment Manager is free to manage the exposure to relevant exchange rates and may decide to hedge (an investment position intended to offset potential losses) or not to hedge exchange risks. The Fund may also invest in a wide range of securities. On an ancillary basis, the Fund may hold cash and cash equivalents.
