Investmentstrategie

The Fund will not be restricted in its choice of investment by either size or sector. The Fund is considered to be actively managed in reference to MSCI Europe Index (the "Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes and for certain Performance Fee Share Classes, to calculate performance fees. The Benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the Benchmarks. The Fund is not expected to have any exposure to financial derivative instruments in normal circumstances, but the Investment Adviser may on occasion, where it deems it appropriate in seeking to achieve the investment objective of the Fund, use financial derivative instruments listed on a recognised exchange or traded on an organised market or financial derivative instruments traded over-the-counter for investment purposes, efficient portfolio management, and hedging purposes. In addition, the Fund may invest in exchange traded funds and other eligible open-ended collective investment schemes. No more than 10% of the net assets of the Fund will be invested in aggregate in open-ended collective investment schemes. The Fund may invest in closed-ended funds that qualify as transferable securities. Investment in closed-ended funds is not expected to comprise a significant portion of the Fund's net assets and will not typically exceed 10% of net assets.
